

VISION STATEMENT

“Touching the Nations, by Reaching the City”

We are a family of believers placed in the city and called to touch the nations. We are designed by God to touch those who are made in His image and after His likeness. We believe that all people are made in His image and will only recognize the potential given them when they come into right relationship with God.

We have an international purpose. The majority of the nations live in the city. Therefore God has placed us in the city to accomplish touching the nations. We are a “city” church. We are not a community church, a neighborhood church, a suburban church, or a rural church. We have a city expression, and a city/international mindset. This means that we are directed by the effectiveness of our objective – touch the nations/reach the city – and all that we embrace is filtered through this perspective.

We are a multi ethnic, multi generational, urban contemporary congregation that is built on the word, worship, and warmth of God. Word, worship, and warmth are key elements in our fabric. All that we do, and will do is to be centered in the word of God, to offer worshipful expression to God, and to create a warm atmosphere for the people that God draws.

It is the purpose of this church to model Christ, follow Christ, and exemplify Christ to all people of all backgrounds, from all places, with the sole intent to draw them into relationship with God. The purpose of God for this house is to be a house of deliverance.

We are called to the city and the nations – right now! We will accomplish this by having local, national, and international ministry expressions simultaneously. Our desire is to duplicate ourselves through one church with many locations.
